Please note that:

1. Generally, the bank wire payment will take 1-3 business days, sometimes 4-5 business days to reach your account. If you don't receive the remittance after 7 business days, please contact our Customer Service (service@epay.com) for help.

2. The actual amount you received might be less than the amount we transfer, because there might be some fees charged by intermediary bank or receiving bank. You can contact your receiving bank to get details of the fees.
